Temperament	Yards	Crush	Paddock
	Quiet: 12 head Slightly Stirry: 4 head	Quiet: 12 head Slightly Stirry: 4 head	Temperament not assessed in Paddock
	Cows worked well through home yards at assessment. Most cows were quiet in race and crush while being preg tested and assessed. A small % became unsettled when confined and being preg tested but were quick to resettle once released back into mob. Please note: Vendor bred cattle that have never left this property and have only been worked in home yard generally by the vendor on his own.		
Handled With	Bikes , Vehicles		
Assessor Comments	**Complete herd dispersal** 16 EU accredited station mated Hereford cross cows presenting in healthy forward store to forward prime condition that had a LWT range at assessment 430 - 618kg to average 526kg after an over night curfew. This is a great opportunity to purchase proven breeders that are great mothers with generations of breeding behind them. (Same vendor has 2 lots in weaner & yearling sale that are the calves off these cows.) Please note; 1 Grey cow. Delivery dates. Small % of cows with small lump on neck from vaccinations. 1 cow with twisted jaw (see photos). Temperament comments. Same vendor has multiple lots in this sale and the weaner and yearling sale.
