Cattle were assessed straight out of the paddock, and hadn't had time to settle. Consequently, 5 cows were a little agitated while being handled through the assessment. By the time the photos were taken, these cows had settled and become quiet to handle. One remained a little nervous, but presented no issues. At no time were any of the cows aggressive.

Assessor Comments	A good quality line of Station Mated, Angus, and Angus cross cows with Angus calves at foot. These cows were purchased out of the Barraba district in February as PTIC cows. They have since been calved down, and have had the Waitara blood Angus bull running back with them since calving. They are now being offered as a potential 3 in 1 unit. The cows are medium, to large frame cows that are cleaning up in the coat, and starting to shine. They are doing a great job on their calves, which are looking strong and sappy. Buyers please note, 2 cows have old pink eye scaring in one eye, deemed not detrimental. Calves are unmarked.
