Temperament

Yards	Crush	Paddock
Quiet: 40 head Slightly Stirry: 23 head	Quiet: 25 head Slightly Stirry: 35 head Stirry: 2 head Aggressive: 1 head	Temperament not assessed in Paddock

Fairly sensible females that have received plenty of handling. On agistment & being run under station conditions, Very easy to muster, mob up and drove (Heifers walked 14km to the yards the day before) All females were yarded, drafted, weighed an assessed quite easily, Just a few getting a bit impatient in the crush towards the end of the day, wanting to rock back and fourth and stomp on the scales, These females were listed above as stirry/slightly stirry respective of their behaviour.

Handled With

Bikes , Dogs , On foot , Vehicles

Assessor Comments

Females that would have been retained and calved down, unfortunately a change in circumstances meant these females were brought to the area on agistment & are now being sold direct from farm. This line of females consists of both vendor bred heifers, & carefully selected brought in heifers, all sticking to the Te Mania genetics. PTIC to high-end select Te Mania sires for a Mid Feb - Early April calving. This is an ideal line of females for anyone wanting to introduce some superior genetics in to their program. Or calve down & take advantage of the buoyant Heifer & calf market. Buyer Notes. These females walked 14km to the yards & received an overnight curfew - please consider this in your delivery adjustments. At a minimum 10 females presented with a white patch on their flanks/udders. At a minimum 8 presented with a minor blue eye, not deemed detrimental.
