Assessor Comments	A neat line of 2 yr old station mated heifers with calves at foot. These Hazeldean blood heifers are showing plenty of doing ability, as well as being well put together, with tidy udders and femininity. These young females are doing a great job on their calves. The calves are by Bongongo Bulls are showing good growth for age and plenty of thickness. Heifers are currently running back with a Bongongo Angus bull which will be pulled out at delivery. This package will be a great addition to any operation. Please note approx 4 heifers do have white on udders and approx 3 do have a white blemish on eye but isn't detrimental. All calves have been marked except one bull calf, which has only one teste has presented and waiting for the other one to drop.
