Assessor Comments	Bucket reared F1 heifers doing an outstanding job on their young Angus calves, with these girls showing more than ample udders underneath to be promising vealer mothers of the future. Calves were marked & vaccinated at assessment, and in the buyers favour there are 5 steer calves and only 2 heifer calves. Noted one calf with a broken baldy face and all the other calves had solid black faces. These heifers are bucket reared and it showed in the yards with these girls very easy to handle and had an excellent temperament. Would suit cattle producers of any experience level.
