	Cattle were a pleasure to draft and weigh. Few eager to leave weigh platform but settled immediately in yard. Refer videos and note they trotted down the yard to where the calves were penned. Good to handle.

Assessor Comments	50 Heifers & calves for sale today. 16 in second draft. From a high quality herd of cattle with many years of a breeding. Well handled with their lives in front of them. The heifers were weighed in sale lots, however calves were weighed as a total mob with mothering to be completed after assessment. 35% steer / 65% heifer calves- marked, 5 in 1, pilligaurd. Main herd calve from Jul/Aug and endeavors are maintained to keep a tight - early calving. These units will not disappoint, having been through winter and due to lack of hot weather have not yet cleaned off in the coat. Very feminine and milky heifers with their lives in front of them. Odd old eye scarring not detrimental, odd white on udder- nothing towards navel. Please call if any questions.
