	The majority of these females handled well through the weighing process. Some cows became agitated in the drafting process and when pressure was applied in small yards. A few cows looked to exit the crush swiftly and settled once back in the mob.		
Handled With	Bikes , Dogs , Vehicles		
Assessor Comments	Ewenmar Herefords "Woonoona" Tooma offer as part of their 300x300 Cow & Calf herd dispersal (property sold), 38x36 2016 drop (4th Calvers) EU Accredited Hereford Cows & Calves. These females are in the prime of their breeding life and will complement or lift any commercial Hereford herd. The herd has been culled hard over the years for temperament, fertility & structure with a high emphasis also placed on selecting bulls with 100% eye pigmentation on both eyes, moderate birth weight, high milk and high 600 day growth figures. I would describe these cows as predominately large frame showing tremendous length, thickness and phenotype. These cows have good vessels of milk and are doing an excellent job on their calves at foot. Please note 2 more wet cows then calves, please refer to special conditions. Also note 2 cows with old pink eye scarring , 1 cow with no tail & 1 cow with a long toe, refer to media. Please also note vendor has 8 other lots in the same sale
