Assessor Comments	Offering 12 x 12 Angus heifers and calves. This has been a self replacing herd for the past 40 years and these are being offered due to being surplus to requirements. The herd has been using Lawson Angus blood for the past 40 years and the calves are sired by a Paringa Angus bull. The breeding objective is to select for 200 - 400 day growth with moderate mature size and high carcass merit, in particular high EMA fat and IMF. Also easy calving.
