| Vendor Comments              | This regretful dispersal is due to our age and retirement plans. However, it has created a great opportunity for the successful purchaser to secure classed in fine wool producing ewes that have 35 years of breeding here at Stoney Park East.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |            |                   |

| Assessor Comments            | A rare opportunity to secure these 2018 drop ewes that are apart of the locally renowned 'Borambil' blood Molesworth flock. This lot are in line with the Molesworth breeding ewe dispersal in today's sale, offering the chance to put together 1360 ewes that are joinable now. These ewes are classed in on wool type as weaners by Rex Bennett and provide a valuable wool clip (see doc attachments for 2021 wool results). They also provide value as breeders as the flock reared lambs to marking at 99% for the lambs by Merino rams and 110% for Poll Dorset X lambs marked this year. Below 10% of ewes were noted to have dry dag on breech and up to 25% have long toes, to be expected of ewes from this country. This age group was noted to have the longest toes and every effort will be made that all delivered sheep will walk unhindered by their long toes. The successful purchaser has the option to purchase sound Borambil Merino rams or Ferndale Poll Dorset rams off the vendor by negotiation |            |                   |
