Assessor Comments	Good line of Vendor bred classed in ewes, ready to join to the sire of your choice. Lambing at 110-120% yearly anything that is not up to the job is always taken out. High lambing percentages with wool cut of 7kg, it's hard to see these ewes go but there are plenty of young stock kept behind. NOTE: 2% horn/scur present. Ewes have had 100mm of rain on them before assessment & retaining solid weight underneath them.
