| D (56-60cm) | 10% | Plain | 10% | | | | |

| | |
|---|---|
| Assessor Comments | These ewes were purchased ex western Australia southern wheat belt dispersal. Would suit any breeding program as they are plain in the body yet cut over 4kg of bright white wool at only 8 months. ewes are very easy care with no health treatments required since arrival ( see notes as to drench test). in the past 4 weeks ewes have been cutting teeth and due to that have only maintained condition score. Once teeth have fully erupted and given the right nutrition I expect these ewes to grow into very good future breeders. Please note 390 tops of the mob in this sale. vendor has ordered electronic post breeder tags and the ewes will be tagged prior to delivery. |
