				Light	2%		

Assessor Comments	Outstanding line of classed in breeding ewes, mouthed and bagged sound with plenty of life and production left in these ewes. Very big framed roomy ewes, big boned sheep bred for confirmation and constitution and excellent wool attributes typical of Sharlu Park bloodlines. These sheep are tough and can handle inside and outside bush country, they have gained condition since the lambs were weaned late September. Ideal ewes for both xb and merino lamb production, there is money to be made with good future hook value on a large ewe and these have a great start to handy rebate on their back.
