Assessor Comments	A good quality line of vendor bred Braford & Braford X heifers exposed to Braford sires. These heifers present in good strong healthy condition expressing good frame, clean heads with plenty of scope to grow out into large cows. Stock have been handled well & were a pleasure to handle through the yards. An opportunity to secure a light 3 deck line of mostly white face soft heifers with lifetime traceability, suitable to grow into most markets. N.B small % of heifers display longer toes due to soft black soil environment, expected to rectify. 1 heifer showing old fly bite.
