	Slightly Stirry: 3 head		Slightly Stirry: 5 head			
	Good to handle through the yards and in the race, the weather was cooler with some heifers fidgety & fussing when in the race or crush yet calmed down when reunited with the mob. Quiet in the yard for photos and when walking through gates, very well handled & educated.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	Exceptionally good quality vendor bred Charolais & Charolais cross heifers, HGP free #0"s & 1's. Future breeder heifers & A1 heifers to feedlot. Originally retained as breeder replacements being sold due to the continuing feed shortage. Heavy bone, great muscle good length and well grown. From a very good quality herd of large frame cows the Breedon herd are well known for their feedlot performance and quiet disposition. Very well handled and educated. 8 heavy heifers mouthed 6 milk & 2 are fresh 2 tooth. Station scanned 17 under 5 months in calf (red tag ID'd) - the balance NDP yet are running with Angus bulls and are on fresh green pick. 1 heifer with a fresh weeping eye - currently blue/glazed & 1 heifer with ever so slight warts. A prompt short delivery window - the cattle are on good short green pick & ample hay until delivery so will truck full & well prepared.
