	These cows were easily handled and assessed. They are typical of pastoral bred cattle in the sense that they are free flowing through the yards and can stir up when under pressure. When left alone they are calm and easily handled.												
Handled With	Bikes , Dogs												
Assessor Comments	Buyers on offer is a small line of PTIC Angus x Cows. These cows were bought in as Cows and Calves and have recently had big weaners pulled of them. They were Preg tested in Calf to Angus & Shorthorn Bulls. These cows would be ideal trade cows and would be suited to calve out and either join or fatten. These cows were treated with Dectomax Injectable at assessment for ease of clearing. Ideal clearing window from 23-25th Nov. The vendor is guaranteeing them clear of the dip. Purchaser to cover all associated cost however if they do not clear vendor will cover feed and clearing cost of the 2nd attempt. Please note 3 cows had capped hips and one cow had one ear. 1 cow also had slight lump behind offside shoulder.
