Assessor Comments	Buyers here is a genuine line of Angus & Angus cross PTIC cows 4 to 8 months. Cows have good depth of flank with plenty of volume and femininity. Cows are a good to medium large frame with nice length and softness. Cows are all PTIC to stud Burenda & Carabar Angus sires. These cows are only getting sold due to being out of vendors calving window from when they purchased property. Cows don't have number brands but all cows where mouthed with majority being young to middle age. Cows where good to work through yards, odd cow agitated under pressure but settle straight away. Buyers please note, 3 cows showing aged udders but still very functional, 3 cows having very small needle lumps on neck and 1 cow on jaw.
