Assessor Comments	'Curemont P21' is a well bred Limousin Apricot PTIC cow. Bred in the Curemont Stud. She has been AI'd to 'ACE' and cover mated to Curemont Q24. A great opportunity for the buyer to take advantage of significant investment in leading Limousin genetics by the Curemont Stud. P21 presents with a rye tail, she was slightly stirred up in the weighing process as the rest of the mob was moving away in a larger holding yard, she settled quickly post weighing.
