Assessor Comments	Offering 22x23 Angus cows with their 4th CAF. These cows are from a self replacing herd for the past 40 years and are being offered due to surplus to requirements. The herd has been using Lawson Angus blood for the past 40 years and the calves are sired by a Paringa Angus bull. The breeding objective is to select for 200-400 day growth with moderate mature size and high carcass merit, in particular high EMA fat and IMF, also easy calving.
