Temperament

Yards	Crush	Paddock
Quiet: 35 head Slightly Stirry: 4 head	Quiet: 35 head Slightly Stirry: 4 head	Temperament not assessed in Paddock

Overall a very quiet pen of heifers, however, typical to the breed of these heifers they are sensitive to being blocked up & like their space in the yards when handling. None of the heifers presented stirry in the yards and when mouthed and put through the crush they were easy to handle.

Handled With

Bikes , Dogs , Horses , On foot , Vehicles

Assessor Comments

These are high quality Commercial Wagyu Heifers. They have been bred to target high milk production and high carcass weight, while maintaining good marbling genetics. They are generally a line that would not be offered, however, due to a tight joining period resulting in a negative pregnancy test an opportunity has arisen. An excellent line of heifers that would make great feeders or are a good chance to expand your Autumn herd. The temperament for their type is not to be faulted and they were an easy going line during the whole assessment. BUYERS PLEASE NOTE: the vendor is offering 6 with the status of 4 tooth when mouthed, there is the option to either take or leave this portion of the lot, leaving the remaining 33 0-2 tooth portion.
