	Heifers flowed through the yards with ease, drafted off their calves with no issue. The odd Heifer got up on their toes in the yards and assessment process but nothing of an aggressive nature. Some Heifers did stir up slightly in the crush also. Overall a predominately quiet line of NSM Heifers & Calves.

Assessor Comments	Originally purchased for a new Herd, but due to a change in operations, and very wet conditions these lines of Heifers and Calves have once again come up for sale. 26 Angus Heifers and Calves by Stud Angus Bull Merlewood Replay P85. The heifers are September/October 2019 drop, and sired by Merlewood Dinky Di Z191 G62, Merlewood Bando HOD H4 and Lawson Ultimate F8152, while the dams sires are Lawson Henry 8 W1140, Barwidgee 06585 and Barwidgee 08479. These heifers have been running in very wet conditions and were the tops of the breeders (Campbell) family replacement heifers with 50 years of top genetics used. The cattle are ideal young breeders and are an excellent opportunity as heifers of this calibre are rarely offered for sale. Please note Vendor has other consignments in this sale.
