Assessor Comments	The lighter (and probably younger) Heifers from a mob of 69 being offered for sale. A tail had been drafted out before assessing. These Heifers will naturally grow on and should develop into very handy Cows. Those Buyers seeking early Autumn Calvers for replacements will not have had much selection up to date and now could be a very good time to secure them. Selected as the better quality Weaners available last Spring and have done well despite very wet conditions down on the Bass Coast. Chance to put a B-Dble of good Heifers together that will have frame and maturity come calving time in early February.
