Assessor Comments

On offer is a excellent line of 4th calving cows carrying a heap of weight to commence calving February next year for 6 weeks. Cows were all preg tested in calf to a Welcome Swallow Angus bull. Being proven mothers these girls are perfect to add to any top Angus herd or to the little hobby farmer starting off. With an excellent temperament they will suit any type of buyer. Note two cows with a flick of white on their udders. Note there were two cows with long hoofs and with the weight they are carrying, two were a little slow and shuffley when walking please see photos for contentment.
