Assessor Comments	"Herd reduction" EU Angus cows 8-9 years Lawson bld (numbers in each age group unknown) and sappy Angus calves at foot 3-4 mths (male calves unmarked). I feel cows are sound enough that they would rear another calf, udders appeared to have all quarters working, 1 cow curled front toe, 1 looked a little stiff in rear hind leg. Bull will remain with cows till delivery, I'd recommend a bull be add on arrival to complete joining. 8 straight Angus cows with white on udder.
