Comment on Fat Score 1 Cattle Cattle presented in very strong 1 score and showed plenty of energy and strength through the yards, these steers are growing and only lacking fat cover. Also having access to Ultralix Breeder Molasses - providing them with additional high energy, protein and minerals to ensure they have a continual rise in plane of nutrition. Would be suitable to travel long distances and Fit to Load Standards will be followed.

	Typical North/Western station bred cattle that flowed extremely well through the yards with minimal pressure needed, steers have had experience up a race, including weaning and assessing. If they rush through the yards they can be blocked up very quickly. 10% did become agitated with in the crush but once back with the mob they calm almost instantly.
