Assessor Comments	A very good line of Black Baldy Angus cross heifers ideal to join now. The heifers have been on oats since weaning in late May and returned same after the assessment. These heifers represent an opportunity to purchase quality bred heifers with years of top priced bulls used and a strict breeding program. Growth for age is a credit to the breeding with heifers only 12-14mths of age. These heifers are not required for the vendor's breeding program only due to having enough to join this year. Temperament is very good and they are wonderful to handle. There are two brands/earmarks in these heifers which is used for family splits. A line of Hereford heifers off the same property are in another lot in this sale.
