Handled With	Heifers did stir in the crush while being assessed and were quick when being handled in the yard when pressured. Bikes , Dogs		
Assessor Comments	A dual purpose line of Brangus x heifers presenting in forward store condition. Heifers could be joined for a breeding program or would suit any potential buyers looking to background cattle for feedlots. The heifers were well behaved and inquisitive while photos were being taken but once they were pushed into the force yard and put through the crush, most of the heifers stirred and didn't like being in a confined area. These heifers will offer potential buyers good compensatory weight gains. **Please Note** Vendor has another lot in the sale. 7 heifers had humps due to their percentage of Bos Inducis breeding.
