	Heifers are well handled and are good to work with in the yards and paddock. A small number of heifers stirred when caught in the head bale to be mouthed. When released into the mob they relaxed immediately.

Assessor Comments	40 NSM Angus Heifers that weighed from 400kg – 520kg to average 464kg at assessment. They are all 2 teeth, present in a fresh forward store to forward condition and are predominately “Rennylea Angus” blood. Considering their age, frame, and carcase traits they would perform well in a feedlot or to finish on crop / pasture. Romani run a very strict fertility program and if a female doesn’t bring a calf to marking, then they are culled so don’t rule out giving these heifers another chance to be your future breeders. Romani are also offering 19 Black & Red Baldy Heifers in this sale. PLEASE NOTE: 4 x white on udder / 3 x cloud in one eye / 3 x scarring in one eye / 1 x scarring in 2 eyes.
