	Heifers were assessed not long after yarding. No issues when handled correctly with a flight zone of approximately 4-5m. At no point were any aggressive they just like their space and prefer to be within the mob. When handled in a holding yard heifers were more relaxed during media. Cattle that will improve with more correct handling. Heifers that will give you respect when respect given, personally I would be happy to purchase for myself. Heifers have not been trucked before. Please see videos.
Handled With	Bikes , Dogs , Vehicles
Assessor Comments	Excellent Dunoon blood Angus heifers showing fabulous type, length and bone. Vendors have been purchasing Dunoon genetics for quite some time focusing on predominantly 200 & 400 day growth, structure and phenotype and it goes to show in these cattle. Sires selected from Dunoon have been classed 1 for temperament - more favourable. Heifers present in tip top condition and have lifted in the coat and are on the do. The Grant cattle are usually at the top end of the rate when offered for public auction. One heifer noticed with white on her udder. Grass-fed, Antibiotic free. Please call for more information.
