	Naturally quiet cows that have been well handled.												
Handled With	Bikes , Dogs , Horses , Vehicles												
Assessor Comments	Mostly young small and medium framed western bred Droughtmaster cows that are well handled and very quiet. The small frame is more likely to be a result of poor nutrition, being very fertile and getting in calf at an early age rather, than a lack of quality. All cows have sound mouths and udders and doing a mighty job on their calves. These are cracking droughtmaster calves consisting of 3 males and 5 females.
