Handled With	Heifers were good to handle with a small percentage stirring in the crush but settling once released. Bikes , Dogs , Horses
Assessor Comments	A line of well bred EU Angus heifers PTIC to Clunie Range Angus bull to a tight 8 week joining program to calve March/April 2022. Heifers are of the best genetics and vendor is only selling due to being surplus to needs. A great opportunity to secure a line of quality Angus heifers which are hard to find in our current market conditions. Heifers are presenting in forward condition and were good to handle at assessment. This line was the larger frame heifers in the group with the vendor having another lot in the same sale. **Please Note** 2 heifers had blight scarring and 1 heifer had white on her udder.
