Assessor Comments	Buyers a nice line of Euro infused heifers PTIC to high quality Futurity shorthorn & Eagle Hawk angus Bulls. They have grown into nice heifers with good bone and stretch. They should mature into nice maternal types. They are up to date with all of their animal health treatments. Odd heifer noted with old pink eye scarring and one heifer has a wound at the butt of her nearside ear from a Selovin leasion. Please note these heifers are visually starting to udder up but by joining details they should start calving early january. All fit to load rules will be followed. Would not suggest travelling extended distances.
