Assessor Comments	A great line of cows with outstanding Eaglehawk calves at foot and back to the same bull, The cows were scanned at assessment, by an experienced non registered scanner. Results were, 23 head tested in calf, 6 to 18 weeks. 4 head not yet detectable. This aligns with age of the calves. Over all this mob presents very well, please note there is an odd cow with a blue eye, and an odd cow with a sore foot. Vendor has Two other lots in sale. Bulls may be available to purchase.
