All cattle go through a program of induction which includes education of electric fences, dogs and horses for approximately a weeks time.

Assessor Comments	A line of heifers providing well for their young calves. Heifers are milking well and calves are in fresh condition. Ideal unites that are proven breeders. Heifers have been running back to the Angus bull since calving. Please note. (2) heifers had a blue or cloudy eye not deemed detrimental. (1) heifer had a large vaccination lump on near side. (1) calf had missing offside eye.
