	These heifers/Cows were a pleasure to handle right throughout the drafting and weighing process. Each heifer/Cow stood still on the scales in the crush and waited contently then walked on when asked to move. Not docile as they moved off when asked without hurrying at anytime. These heifer/Cow showed no signs of temperament issues even when the calves were being pulled of them.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	A small Quality line of Quiet red Angus Heifers/Cows station mated back to Red Angus bulls presenting in store/forward store/ prime condition doing a magnificent job on their progeny. This consignment consists of 6x First calvers (2020 & 2019 drop), 2 x Second calvers (2018 drop) and 2 x Cows (2013 drop). The calves present in fresh condition exhibiting great squareness, softness and structure for such a young age which allows the purchaser to target numerous markets with the vealer job, trade job or still having the genetics to hit the heavy feedlots. These heifers/Cows and calves creates a great opportunity in purchasing youth that will do a job in any intended breeding program for many years to come. Note: 1 x Cow had an injection lump behind its ear which is deemed as non detrimental. With the weaner and Cow markets hitting record prices and still climbing this small line of mainly 1st & 2nd Calvers screams opportunity.
