Assessor Comments	A nice quality mob of preg tested in calf Angus cows ex Coombing Park. Surplus cows out of a very large herd. Missed going into calf last joining and were retained and rejoined last Autumn. These cows now present forward in pregnancy being tested as greater than 7 months in calf by James Sutton of Bathurst. Any cows that were right up on the job were removed from the lot and please note that if anything presents as such at delivery it will be removed before trucking. These young cows present a great opportunity in this fantastic season to calve down and roll into an autumn program or to split and trade. Worthy of close consideration.
