	Really good females to handle in the yards and crush, All led up the race well despite being Preg tested earlier. Just a bit flighty in the paddock when on foot. Good to approach in the ute though.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	Big heavy cows that present buyers with multiple marketing options. 5-6 months in calf to the Angus Bull. Cows that will no doubt produce cracking little black and blue roan poddies. These are ideal cattle to split, being only 12 weeks off starting to calve and prime enough to kill. Please see photos & video for full contentment. .
