Assessor Comments	A quiet line of Angus, Angus cross and Wagyu x cows, PTIC to Kennys Creek Angus bulls. These cows had great calves weaned off them at assessment. Predominately younger cows with 13 / 16 only showing 4-6 teeth at assessment. These cows were purchased as a trade option - possible 3 in1 units back in Sept 2021 and these are the pregnant females from that purchase. Cows are 3.5 - 6 months in calf. NOTE - 2 cows have a % of Bos indicus in them. NOTE - 2 cows have old pink eye scars - not detrimental to them. These females would be good addition as breeders to your herd or as a trade option.
