Vendor Bred	Yes												
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable												
Grazing Conditions	Improved pastures - new phalaris pasture Returned same												
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment												
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives												
Vendor Comments	These heifers were pregnancies in a group of cows we purchased in as a trade option in July 2020. Lovely composite heifers only being sold now as they are surplus to our requirements.												
Joining Details	Station Mated bulls put in: 13/10/2021 bulls taken out: 26/11/2021 (45 days) Bull Breed(s): Registered Angus Bull IDs: BHRQ1030 - was in for the first 2 weeks of the heifer joining then replaced with Mundarloo R56 who will stay with the heifers until delivery. To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.												
Preg Tested?	No, this lot was not pregnancy tested.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A great opportunity to purchase quiet station mated composite heifers. These heifers are out of composite cows which were purchased in July 2020. These heifers are by Angus and Red Angus bulls and are now joining to Angus bulls. The heifers are very well grown and are expressing good length and muscle. Very nice temperament in both the yards and through the crush. These heifers would be a great addition to your herd as a young line of breeding females. NOTE - small % of heifers showing signs of Ringworm. There are 10 red , 5 black and 2 grey composite heifers in this line. NOTE 2 have horns. NOTE - vendor has another lot of PTIC cows in this sale.
