Generally quite low stress to handle throughout the whole assessment. Cows that are well-handled overall and made the assessment process easy-going. Typical to their breed they are handled with space and will block up if you don't allow them room in the yards.

Assessor Comments

These are high quality commercial breeding Wagyu cows. They have been bred to target high milk production and high carcass weight, while maintaining good marbling genetics. They are generally a line that would not be offered, however, they are listed as the vendor is looking to increase the youth in their current herd. This line would typically be re-joined as part of the vendors regular breeding program, they have had NO access to any stags or bulls this year. They are cows that are in store/prime condition and are realistically reserved at their kill rate. A great pick up to add to anyone's Autumn herd looking to build upon numbers. The temperament for their type is not to be faulted and they were an easy going line during the whole assessment. Buyers please note: 6 head have old pink eye scarring that is deemed non-detrimental.
