	The heifers did get a bit testy when being put up the race for assessment, In my opinion it was due to a pretty basic set of yards that was used for assessment. Heifers behaved well at drafting prior to assessment and once let out the yards					

Handled With	On foot , Vehicles
Assessor Comments	On offer from this vendor is 2 lots of PTIC Angus Heifers that present in forward condition, They were purchased from reputable breeders with the view to grow out and join as future breeders, They are well grown and structurally sound young breeders with their life ahead of them, 1 heifer was noted as having an old pink eye scar but was not deemed detrimental to her eyesight. In short a great draft of heifers that would be ideal to top up an existing herd or as the foundation of a new herd.
