Assessor Comments	"2nd Stage Herd Dispersal" 8 X 8 Angus Cows and Calves Station Mated to stud Dunoon Angus bull L1037. The cows are August/September 2018 drop, and sired by the stud Angus bull Dunoon L587. They have got August/September drop calves at foot that are sired by the stud Angus bull Dunoon M963. These heifers and calves are quality outfits that have been running in steep hill country in South Gippsland, while the vendor has only selected to use top genetics in his breeding operation. The temperament of these cattle are a credit to the vendor, they are well educated and have been running behind a single wire electric fence. This is stage 2 of a herd dispersal and are only being sold due to a business opportunity. There is also another 2 lots being offered in the same sale from the same vendor.
