Assessor Comments	"2nd Stage Herd Dispersal" 10 X 10 Angus Heifers and Calves station mated to Dunoon stud bull L1037. The Heifers are August/September 2018 drop, and sired by Dunoon stud Angus bulls. They have got August/September/October drop calves at foot that are sired by the Harris Farms Angus bull. These heifers and calves are quality outfits that have been running in steep hill country in South Gippsland, while the vendor has only selected to use top genetics in his breeding operation. The temperament of these cattle are a credit to the vendor, they are well educated and have been running behind a single wire electric fence. This is stage 2 of a herd dispersal and are only being sold due to a business opportunity. There is also another 2 lots being offered in the same sale by the vendor. Please note 1 heifer has an old pink eye scar and another 1 has a damaged eye from when she was a calf, refer to photo.
