Assessor Comments	"2nd Stage Herd Dispersal" 17 X 17 Angus Cows and Calves. The cows are 3-5 years old, and have been running back with the stud Angus bull Dunoon L587 since the start of November. They have got August/September drop calves at foot that are sired by the stud Angus bull Dunoon L587. These cows and calves are quality outfits and doing an excellent job on their calves, while the vendor has only selected to use top genetics in his breeding operation. The temperament of these cattle are a credit to the vendor, they are well educated and have been running behind a single wire electric fence. This is stage two of a herd dispersal and are only being sold due to a business opportunity. There is also another 2 lots being offered in the same sale by the same vendor. Photo of bull is L587.
