Assessor Comments	This is a very good mob of genuine Shorthorn breeders cattle. EU accredited & JBS Farm assured. They range from 4 - 10 years old and are PTIC to very high quality Angus bulls purchased from Rennyalea and Murdeduke Angus Studs. Telang has been breeding Shorthorn cattle for a long time, with the herd originally based on Weebollabolla genetics, and in the last 20 years Yamburgan and Sprys genetics. These cattle are renowned for their milking ability and high growth. They are joined to calve from 1/3/22 - 27/4/22. They were extremely quite and good to handle in the yards.
