Assessor Comments	This is an excellent lot of genuine Shorthorn breeders cattle. EU accredited & JBS Farm assured. They are only due on their 2nd & 3rd calf, and have their whole lives in front of them. Telang has been breeding Shorthorn cattle for a long time, with the herd originally based on Weebollabolla genetics, and in the last 20 years Yamburgan and Sprys genetics. These cattle are renowned for their milking ability and high growth. They are joined to calve from 1/3/22 - 27/4/22. They were extremely quite and good to handle in the yards.
