	Very nice cattle to handle in the yards and crush. They have had extensive human contact with enclosed feeding with pen weaning and pen fed over winter on silage. The property has a regular paddock rotation and the girls all come up to meet whoever enters the paddock.			
Handled With	Bikes			
Assessor Comments	They will be excellent long term females for any property and they will add to any established herd they enter. They have been fed pasture hay through winter and have been being part of a rotational grazing program resulting in regular human contact. Very nice shaped heifers that carry all the attributes to be excellent cows well into the future. Very quiet - Highly recommended to all levels of cattle experience
