Assessor Comments	100 good to fair quality Dorper composite Dorper/Damara cross ewe lambs, 10/11 months of age. Presenting in strong, healthy and forward store condition. 20% of this lot showing light colouring, throwing back to original lineage of composite cross dams. 80% showing credit to Benalong Dorper sires used since 2017. As depicted by photos, ewe lambs are in various stages of shedding with no shearing taking place in vendors program. Lambs averaged 43kg lwt at assessment and are ideally suited to restocker wanting to enter the shedding breed operation and join to shedding ram of choice. NB: 5 head noted to have ewe horn.
