Assessor Comments	128 quality Australian White future breeder ewe lambs. These young ewe lambs are 'Tattykeel' blood and show plenty of potential of growing out into reliable breeding sheep. They weighed 51kg at assessment with 100% of the mob being weighed from 40kg - 64kg. This is a complete drop of lambs with a 5% tail removed, being 2-3 scores and are in ideal condition and weight for joining . These lambs are March/April drop and have a mile of growth left in them. This mob presents as a great opportunity to purchase a line of young shedding ewes. Buy with confidence. Buyers note: Vendor has 7 additional lighter ewe lambs that can be optional to purchaser at an agreeable price. 33kg - 38kg to average 36kg.
