Vendor Comments	Annual sale of sucker lambs.		
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	First cross ewe lambs. Bred out of medium framed 18/19 micron merino ewes. Sired by large framed border leister rams bred at Ournie - Upper Murray. These lambs have not had a setback and will continue to grow out properly given quality feed. A small tail has been retained. Dirty lambs have been bung holed. Ideal trade opportunity to fatten and sell ready to join or to retain as breeders. These ewes will have a lower micron when mature due to the dams micron and as a result would typically return a higher fleece value than broader types. Please note 1% had a weepy eye at assessment and when inspected no grass seeds were found. They appear to be clearing up. A neat line of first cross ewe lambs.
