Joining Details	Not Station Mated		
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.		
Assessor Comments	750 Lambpro Primeline Maternal x, 32.4 kgs at assessment. Recently crutched, drenched, Clikzin, 2 x 6 in 1 & Gudair vaccinated, show them good feed and watch them grow. A great even line of potential future breeders. High indexed sires are selected yearly for confirmation, low birth weight, fast growth, positive fat and limited adult weight. Bred from the Mount Hesse Centre Plus blood Merino flock these ewe lambs retain the Lambpro Primeline size, structure and reproductive performance as well as gain added value in the skin and wool production. Ewes that will produce big lambing percentages together with wool income not commonly found with composites. Buyers can bid with confidence.
